

Local Agency Memorandum of Understanding

CROP Hunger Walks work to alleviate hunger and strive for justice. The Walk is a fundraiser which also raises awareness of hunger both locally and globally.

Why become a CROP Hunger Walk Local Agency?

- Collaboration with a global partner
- Ability to have a global impact with a local connection
- Connect with local churches, organizations, and other hunger agencies
- Participation is a community-wide event
- Receive a grant from the local CROP Hunger Walk

CROP Hunger Walk Planning Teams can request up to 25% of the total funds raised to be allocated as a grant to local hunger agencies. Agencies are selected based on the agency's impact on local hunger and willingness to actively partner with the CROP Hunger Walk.

Local grant recipient agencies are expected to:

- Create a Walk team and raise money
- Promote the Walk on their agency website, in newsletters, emails, etc.
- Provide agency information for use in publicizing the local impact and need
- Display Walk posters and information in visible locations at the agency
- Promote volunteer needs for Walk Day

Check one or more of the following additional ways your agency will support the Walk:

- Provide someone to serve on the Walk Planning Team
- Secure snacks for the Walk Day
- Provide volunteers to help with Walk Day (rest stops, registration, crossing guards, etc.)
- Help facilitate hunger education activities on Walk Day

We understand that to receive a local agency grant from the CROP Hunger Walk, our agency will be an active partner in the event.
