CROP HUNGER WALK

ENDING HUNGER ONE STEP AT A TIME

Since the beginning of 2015, CWS has distributed 13,000 hand fans with handwashing information to students in Vietnam, who in turn take the fans home and share the information with their families. These fans are fighting hunger by keeping families healthy and able to go to school or work. Now, the same fans are available to YOU as a tangible representation of the work that your support makes possible. Check with your CWS staff representative to order some fans for your Walk!
