

# Activity—Scavenger Hunt

## **Around the Block and Around the World**

Create an interactive and fun scavenger hunt in your community to highlight the work of CWS locally and around the world.

## **Scavenger Hunt Map**

Create a scavenger hunt map with an “X” at 6 spots around your community. Provide a blank space next to each “X” to write in the location of each clue, the last “X” would have a treasure chest.

## **Introduction**

(Each participant or team will need a map, list of clues, smart phone and a writing utensil)

Come along with us as we travel to various spots in your community on your CROP Hunger Walk. You will see how the global work of CWS can be seen in the everyday things right where you live!

Whether you choose to travel by driving, walking, taking public transit, biking, boarding or blading - take the journey with us to see how your CROP Hunger Walk meets the needs in the global community as well as your local community.

Follow along one clue at a time and see where the adventure will take you next.

Once you travel to your destination, use your smart device and take a picture of each QR code to watch each video about how your global brothers and sisters are being helped in each specific category of need through your funds from the CROP Hunger Walk.

Once you arrive at each stop along your journey to find the treasure, snap a selfie of you and your group with the place in the background. Be sure to use the map on the next page to write in the stops you make on your expedition.

Share these photos on your personal social media pages, local CROP Hunger Walk pages or nationwide CROP Hunger Walk pages. After you share your photos, take time to see how the entire CROP Hunger Walk community is taking the same adventure as you in their own areas! Be sure to use the hashtags: #CROPHungerWalk #CROPscavengerhunt #enough4all and your local walk hashtags!

**Clue #1: Dlo, Maji, Voda, Agua, Water**

Whether it be a stream, lake, pond, river, community pool, or fountain, find a source of water in your community that you can journey over to. CWS provides clean water to our brothers and sisters around the world. Clean water is essential to daily life.

**Clue #2: Around the Block**

“There is no power for change greater than a community discovering what it cares about” -Margaret J. Wheatley

Your CROP Hunger Walk funds support local agencies in your community by giving back 25% of Walk income! Look at your local Walk information to see a list of the organizations supported by this year’s walk. Cruise on over to one agency of your choosing (or all of them if you’re up for the challenge)!

**Clue #3: Growing Hope**

Just as CWS teaches those around the globe how to farm and provide for themselves, there are many in your local community that farm and provide food locally. Travel over to a farmer’s field, a fresh food stand, a garden or farmer’s market in your community! CWS programs help give the resources and knowledge for families to farm, which creates a sustainable and steady source of nutrition!

**Clue #4: Reading, Writing, Arithmetic, & Recess**

Education is a powerful tool that enables individuals to succeed and provide for themselves, their families and the greater community. Venture over to a school or education center in your area. Your support through the CROP Hunger Walk provides education to many in the global community.

**Clue #5: Healthy Lives**

Thank you to health care workers across the globe who work tirelessly to provide for so many. Good hygiene and health are vital aspects of our lives that allow for us to live to our fullest potential. Move on over to the parking lot of a doctor, dentist, chiropractor office or even a health clinic in your area. Access to hygiene and health supplies are provided to those with limited access and resources through CWS programs.

**Clue #6: Walk. Give. Change the World.**

Go back to the starting spot for your CROP Hunger Walk to find the best treasure of all - everyone committed to walking to end hunger all over the world!

**Thank you** for taking the time to connect the work you support globally and in your local community through the CROP Hunger Walk! Now that you’ve found the treasure, you can begin your walk and take the time to reflect on all you’ve learned through your scavenger hunt.
