

Your Walk builds *safe spaces for children*

You are walking with the children of Ukraine.

Since the start of the war in Ukraine, CWS has partnered with a local organization in Moldova to support Ukrainian refugees. One program—the LudoBus—has brought education, fun and a safe space to talk and share feelings to hundreds of Ukrainian children during a very difficult and uncertain time.

With help from walkers like you, the LudoBus has given school supplies to nearly 500 students and is making dozens of children feel happy again, even in the midst of a crisis.

Each step you take helps refugee children, like those in Moldova, get the resources they need to continue their education and find safe spaces and happy moments when everything else around them feels uncertain.
